

MILWAUKEE SCHOOL OF ENGINEERING

2010

ANNUAL SAFETY AND ANNUAL FIRE SAFETY REPORT

ANNUAL SAFETY REPORT

The Milwaukee School of Engineering is committed to making safety a priority on our campus. Become an informed member of our campus community in order to enhance your personal safety and the safety of others, as we all work together to keep MSOE a welcoming place. The following important information about safety, security, crime, crime prevention, residence hall fire safety policies, training and information regarding any fires that occurred in the residence halls is included in this report. This report is also available on our Public Safety website at:

http://www.msOE.edu/about_msOE/campus_safety/

Reporting Crimes or Emergencies: All members of the campus community are urged to immediately report crimes, suspicious actions, fires, or other emergencies occurring on the campus to Public Safety. MSOE Public Safety Officers respond in accordance with the established public safety procedures. Assistance from the Milwaukee Police Department, the Milwaukee Fire Department, EMS, and other emergency services is provided upon request. In any emergency, or if you observe a crime in progress, call 277-7159 (7159 from campus phones), or use one of the campus emergency phones located around the campus (blue light phones). All other reports may be made by calling 277-7169, or by reporting in person to the Public Safety Department, located on the ground floor of the Margaret Loock Residence Hall, 324 E. Juneau Avenue. The Public Safety Department maintains a daily crime log of reported crime. This crime log is available to the public.

Emergency Response: The MSOE Public Safety Department responds to all emergencies, crimes, complaints or situations that may cause a significant emergency or dangerous situation, in accordance with established public safety procedures, in order to confirm, mitigate, investigate, document and summon appropriate resources as is necessary. Assistance from the Milwaukee Police Department, the Milwaukee Fire Department, EMS, and other emergency services is provided upon request.

Emergency Notification and Timely Warnings: Upon confirmation of an emergency, dangerous situation, or a crime which poses an immediate and/or continuing threat to the health or safety of students, employees, or others, Public Safety will immediately and without delay issue a timely warning, unless such notification will, in the professional judgment of responsible authorities, compromise efforts to assist victims or to contain, respond to, or otherwise mitigate the emergency. Follow-up information is

provided as needed, taking into account the safety of the campus community. Public Safety will distribute a notification or warning by one or more of the following: public address system, e-mail, and/or the University's main website at www.msoe.edu.

Emergency Response and Evacuation Drills: Each year pursuant to the MSOE Emergency Response Plan, the university conducts one campus-wide emergency response and evacuation drill or exercise for the purpose of notifying all students and staff of our emergency notification system, evacuation and sheltering procedures, along with testing those procedures and the emergency notification and timely warning systems.

For details about emergency response policies and procedures, see the MSOE Emergency Response website at https://inside.msoe.edu/public_safety/emergency/erp. This website features the following documents:

- The MSOE University Emergency Response Plan
- MSOE Evacuation Assembly Areas
- Department-Specific Emergency Response Plans
- Classroom-Specific Emergency Response Checklist

Report Preparation: The Annual Security Report is prepared by the Public Safety Department. Included in this report is crime, arrest, and disciplinary referral information from Public Safety, local police, Vice President for Student Life, Housing, advisors to student organizations, athletic director, coaches and others, including confidential reports, which are shared in a confidential manner with Public Safety only for inclusion in this report. The Annual Fire Safety Report is compiled by the Public Safety Department, with information supplied by the Housing Department and the Facilities Department.

Enforcement Authority: Public Safety Officers do not have police authority and request police response when necessary. The university's Public Safety Officers cooperate with local police authorities in the exercise of their responsibilities. Local police respond when requested. It is the policy of Public Safety to encourage accurate and prompt reporting of all crimes to Public Safety or the appropriate local police authorities. Public Safety Officers are stationed at the entrance to all on-campus residence halls to monitor and control access into these facilities. In addition, Public Safety Officers patrol MSOE facilities and grounds 24 hours a day, 7 days a week.

Security Awareness and Crime Prevention Programs: MSOE provides information to students and employees about campus security procedures and practices, as well as information on how students and employees can protect themselves and their property. MSOE encourages students and employees to be responsible for their own security and

the security of others and informs them about the prevention of crimes through crime prevention e-mails, crime alerts, as well as making crime prevention literature available at various locations around the campus.

Emergency phones are strategically located throughout campus, and are clearly identifiable by signage and during the hours of darkness are identifiable by an illuminating blue light. These emergency phones are connected directly to Public Safety.

Local Police: MSOE encourages cooperation with local police authorities to monitor and record information concerning criminal activity occurring away from the campus, involving university students or university-recognized student organizations. Public Safety works in cooperation with local police regarding crimes involving students or impacting the campus community and requests their cooperation by informing Public Safety about crimes reported to them that may warrant a timely warning to the campus community.

ALCOHOL AND DRUG ABUSE PREVENTION

The Milwaukee School of Engineering (MSOE) is committed to providing a positive and healthy environment for students and employees. As citizens, members of the MSOE community are subject to the rules of accountability imposed by federal, state and local laws. The criminal penalties may include fines, restitution, imprisonment, loss of driving privileges and other sanctions. Students and employees of MSOE assume the obligation to conduct themselves in a manner compatible with the school's function as an educational institution. Accordingly, under-age or other unlawful use of, possession of, or distribution of beverage alcohol or illegal drugs on campus or at any college-sponsored function will result in appropriate disciplinary action and/or sanction.

The complete MSOE Alcohol and Drug Abuse Prevention statement is available at http://www.msoe.edu/about_msoe/policies/substance_abuse_prevention.shtml.

Student Rights and Responsibilities

Students failing to comply with the above obligations or who violate MSOE policies related to the above will be subject to sanctions prescribed by the MSOE Student Conduct Code over and above penalties resulting from their violation of current laws. Sanctions prescribed by the Student Conduct Code include: reprimand, fines, restitution, disciplinary probation, compensatory service, termination of on-campus residency, suspension, and/or expulsion from the institution.

Likewise, it is important for students to understand the many health risks associated with the use of illicit drugs and alcohol. Those risks include but are not limited to: addiction, violent flashbacks, permanent damage to the brain and central nervous system, liver damage, heart disease, and potentially fatal overdose or withdrawal.

Employee Responsibilities

Employees who violate MSOE's rules related to use and/or abuse could result in disciplinary actions which could include termination of employment or they may be required to participate in counseling assistance.

It is important for employees as well to understand the many health risks associated with the use of illicit drugs and alcohol. Those risks include but are not limited to: addiction, violent flashbacks, permanent damage to the brain and central nervous system, liver damage, heart disease, and potentially fatal overdose or withdrawal.

Resources

Early identification of substance abuse is important in the rehabilitation process. Numerous agencies, programs, and treatment and rehabilitation facilities are located in the Milwaukee area. In addition, any member of the MSOE community may call or contact the campus office below for help or information:

MSOE Counseling Services

Kern Center, Room K-230

(414) 277-7590

Registered Sex Offenders: If you seek information regarding the sex offender status of any individual employed or enrolled at the Milwaukee School of Engineering phone (414) 277-7169, or stop by the Public Safety Department and request this information. You may also visit the Wisconsin Sex Offender Registry website at: <http://offender.doc.state.wi.us/public> .

SEXUAL ASSAULT

The MSOE Sexual Misconduct Policy is available at <https://inside.msoe.edu/files/sexual-misconduct-policy.pdf>.

The MSOE Sexual Misconduct Policy features best practices in Title IX compliance with respect to requirements concerning gender-based misconduct and sexual misconduct. The policy:

- Defines sexual misconduct offenses, including (i) sexual harassment, (ii) non-consensual sexual contact (or attempts to commit same), (iii) non-consensual sexual intercourse (or attempts to commit same), and (iv) sexual exploitation.
- Defines important concepts and terms.
- Provides guidance in violent sexual misconduct situations.

- Provides victims of sexual misconduct with information concerning reporting options, including (i) confidential reporting, (ii) reporting that maintains a victim's privacy, (iii) non-confidential reporting that results in an immediate and official response by MSOE, and (iv) other reporting options.
- Clarifies policies, procedures, and details associated with the sexual misconduct grievance process at MSOE.
- Provides details concerning remedies in Title IX sexual misconduct situations.
- Identifies, and provides contact information for, the Title IX Coordinator, the Title IX Deputy Coordinators, and the University's "responsible employees," all of whom can commence an official investigation of a violation of the MSOE Sexual Misconduct Policy.

It is the policy of the Milwaukee School of Engineering to encourage victims of sexual assault to report the misconduct as soon as possible. Recognizing the sensitive nature of sexual misconduct situations, including a victim's right to maintain both confidentiality and privacy, the University makes available a number of reporting options for victims. You are encouraged to select a reporting option that you believe is most beneficial to you. Regardless of the option that you choose, you should be assured that you will be treated with respect and with a genuine concern for your well-being. You also have the right to choose more than one reporting option.

Victims have the right to report sexual misconduct, including sexual assault, to the Public Safety Department and/or the local police. All sexual assault complaints received by Public Safety are investigated in cooperation with the local police, when applicable. Any employee who witnesses or receives a firsthand report of a sexual assault should immediately report the incident to Public Safety.

Preventative Measures

Awareness and prevention measures are key elements in reducing the risk of sexual assault, but no one can predict or control another person's behavior. If you are sexually assaulted, it is not your fault! Seek support and help immediately. TALK TO SOMEONE rather than trying to erase the incident from memory. This is the first step in regaining control of one's life.

MSOE regularly carries out a number of efforts to promote awareness and prevention of sexual misconduct, including sexual assault and dating sexual assaults. These efforts include programs and literature distributions during Freshman Orientation, Sexual Assault Awareness Week, and Personal Safety Programs. Programs and materials address how to reduce the risk of becoming a victim, how to report suspicious activity or a crime, emergency and non-emergency reporting, and available supportive services.

Get Medical Care

As soon as possible, the victim of any sexual assault should get medical care. The victim will benefit from being examined for physical injury and/or disease, and from a discussion of options available to the victim. In order to preserve physical evidence of the assault, do not bathe, shower, douche, use the bathroom or change clothes before the medical exam. Evidence of this type would be vital if the victim decides to pursue criminal charges.

Report the Incident

Several avenues are available to report a sexual assault.

A victim can file a confidential report with the Counseling and Health Center. The Counseling and Health Center employee who helps a victim in this situation will not share the information with anyone else. This individual will share options and advice, but will not tell anyone about the situation unless you want them to do so. This confidential reporting does not obligate the victim to press charges. The Counseling Center is also available to assist a victim in contacting other support agencies on or off campus. If a victim wishes to officially report a sexual assault, the Counseling Center can also help the victim to notify proper law enforcement authorities and the Counseling Center can discuss the various options open to the victim.

A victim may also report a sexual misconduct situation to an MSOE employee who will maintain privacy. This option enables you to discuss a sexual misconduct situation with an MSOE employee who is not required to tell anyone else your private, personally identifiable information, unless you ask them to report such information, or unless there is cause for fear for your safety, or the safety of others. These MSOE employees include

- Resident Assistants (RA's),
- faculty employees,
- most staff employees,
- advisors to student organizations,
- admission and career staff, and student activities personnel.

A victim may also formally and officially report a sexual misconduct incident to the University. This option enables you to report a sexual misconduct incident to MSOE employees who will take immediate action when you report your complaint to them. After receiving your report (either verbally or in writing), these employees will work with the University's Title IX Coordinator to commence an official, prompt, adequate, and effective University-led investigation, adjudication, resolution, and remedying of the situation. For a list of these employees, along with their contact information, see the MSOE Sexual Misconduct Policy at <https://inside.msoe.edu/files/sexual-misconduct-policy.pdf>.

A victim may also officially report a sexual misconduct incident to the local police department. On the MSOE campus, if you wish to report an incident to the local police department, you are advised to first contact MSOE Public Safety, and to ask them to contact the police. Reporting an alleged crime to the local police department will lead to a criminal investigation. In such situations, the University will also conduct its own sexual misconduct investigation in compliance with the MSOE Sexual Misconduct Policy.

Victims' Rights

Victims have the right:

- * To seek criminal charges and/or to file an official complaint with MSOE.
- * To request protection from harm or threat of harm arising out of cooperation with law enforcement and prosecution efforts and to be provided information on the level of protection available.
- * During the investigation and hearing process associated with a sexual misconduct situation, upon the request of the victim, changes in the academic and/or living situation of those involved are possible if such changes are reasonably available.
- * To be informed of financial assistance and other social services available to victims including information on how to apply for the assistance and services.
- * To be informed of the outcome of any campus discipline.
- * To have the assistance of University personnel in obtaining and securing evidence; preventing contact with the assailant; and finding alternative academic and living situations.

The Accused

The Accused:

- * Has an equal opportunity as does the victim to present relevant witnesses and other evidence, and the victim and accused must be afforded similar and timely access to any information that will be used at the hearing.
- * Will be informed of the outcome of any institutional disciplinary proceeding alleging a sex offense.

Sexual assault will not be tolerated on the Milwaukee School of Engineering campus. Campus investigation and disciplinary action in cases of alleged sexual assault involving campus students and occurring on the MSOE campus will adhere to the processes and procedures detailed in the MSOE Sexual Misconduct Policy. Sanctions imposed range from non-academic disciplinary institutional probation, to suspension, or expulsion.

VIOLENCE AND THREAT POLICY

Policy: MSOE will not tolerate any act or threat of violence made in the workplace, on university property or while in a work status. After receiving a report of threats or violence, the University will conduct an immediate investigation and respond with the appropriate action.

Report: All students, faculty and staff are strongly encouraged to report any incident or situation involving threatening behavior intended to harm to themselves or another person, or any actions you believe may be bias-motivated.

MISSING STUDENT NOTIFICATION POLICY

If any member of the MSOE community has reason to believe that a student who resides in on-campus housing is missing, immediately notify the Public Safety Department. Public Safety will initiate an immediate investigation.

If after investigating, it is determined that the student is missing and has been missing for more than 24 hours, the Vice President for Student Life will notify the student's confidential contact, and if the student is under 18 years of age, and not an emancipated individual, immediately contact the custodial parent or legal guardian of such student no later than 24 hours after the student was determined missing. Public Safety will notify the appropriate law enforcement agencies no later than 24 hours after the time the student is determined to be missing.

* These statistics include anonymous confidential reports made to campus offices described in this report. They, however, represent incidents believed to be made in good faith, but for which no verification has been established.

** Hate crimes are crimes that manifest evidence of prejudice, based on Race (Q), Religion (R), Sexual Orientation (S), Ethnicity (T), Gender (U), or Disability (V):
: **No Hate Crimes Reported.**

*** This category includes all on campus incidents, including those listed "In residence halls." These categories represent a duplication and are not cumulative.

ANNUAL FIRE SAFETY REPORT

Fire safety education and training programs for students, faculty and staff: Fire safety policies and evacuation procedures are shared with students and other residents through a number of methods that include sending an email to each resident at the beginning of each quarter, posting the information on the Housing website, including it in resident's housing contract, the Housing handbook, residence hall meetings with all residents, fire drills and on building signage. Students and residents in violation of fire safety policies are sanctioned accordingly. Resident Assistants and Residence Life Staff are trained in fire safety. Residence Life Staff conduct fire drills for education and personal safety purposes. An email is sent to each resident reminding them of housing fire safety policies and evacuation procedures.

Exits: Access to all room doors must be clear and unhindered, permitting doors to be fully opened. Furnishings may not be placed in a manner that would block an escape through a window should such an escape become necessary in an emergency. Room arrangements may not involve large amounts of burnable material between an exit door and the sleeping section of a room.

Fire Prevention and Safety: Fire safety should be a major consideration as you design and furnish your room. In addition to the cautions listed there, you may not store any flammable liquids of any kind, such as charcoal lighter fluid or gasoline or other volatile materials in your room. Tampering with any fire safety device is a violation of Housing regulations.

Take responsibility for fire prevention and know how to protect yourself in the event of a fire: Know where exits are located and the location of fire extinguishers and fire alarm pull stations. Maintain a safe living environment by using 3-prong extension cords; not overloading electrical outlets; and reporting others if you see that they are violating fire safety policies. Take all fire alarms seriously. In the event of a fire, survival is your top priority. If safe to do so, notify others near the fire; activate the fire alarm system and quickly decide if you can extinguish the fire. If not, get out, closing all doors behind you. If you cannot get out, get someone's attention for help.

In the event of a fire: Sound the alarm and leave the building immediately. Do not attempt to re-enter the building until you are told by University officials that it is safe to do so. It is important that you be familiar with the exits and procedures for evacuating your building.

Extinguishers: Each hallway is equipped with a fire extinguisher. Learn the location of the fire extinguisher and the pull station nearest you as soon as you move in. If you have had to use your fire extinguisher or it loses pressure for any reason, notify your resident assistant immediately to arrange for recharge.
